Food Innovation for Good

We move the planet forward by creating innovative food solutions for the health & well-being of people everywhere

Our Manifesto

We believe that food has extraordinary power in our lives the power to feed, to nourish, to comfort, to bring families together, to unite people of all backgrounds, to help us celebrate both monumental and small life moments, to put smiles on our faces, and even, the unique power to heal.

We do not take this great responsibility lightly, and that is why we are committed to a holistic operating model, one that is sustainable, respectful and balanced.

To this end, we are implementing plans to achieve CO_2 neutrality, use water responsibly, and reduce waste. Our raw materials are sourced respectfully and we aim to ensure safe and stable revenue for farmers. We work in harmony with the communities we are a part of and invest in providing life-changing, educational opportunities in our Bakery Schools. We are committed to our employees and to create a caring working environment that welcomes diversity and promotes personal development.

Food innovation is energy for good and that is why we are constantly striving to grow our positive impact with the creation of innovative food solutions that promote health & well-being and steadily move businesses, customers, people, and the planet forward.

Key Figures USA

We offer a full range of innovative food solutions for bakery, patisserie and chocolate.

Health & Well-Being at Puratos

The way food is produced impacts both people's health and our planet. That's why, since the very beginning, Health & Well-Being has been at the heart of Puratos' research and development activities. We aim to provide the most nutritionally wholesome products possible, without compromising on taste, texture, quality, or safety.

With science on our side, we continuously improve our product range, to be better and healthier. We increase the presence of power ingredients, like fruit, fiber, and wholegrains, in our products. We also strive to cut down the presence of ingredients, like salt, certain fats, and sugars.

SUGAR REDUCED

Puratos helps to lower sugar consumption through its complete range of sugar reduced sweet goods & chocolate products. Additionally, we rework existing recipes with the aim to reduce sugar content. Any sugar removal, reduction and/or replacement action should not compromise neither products taste, nor texture.

HAPPY GUT

The link between gut health and overall health is well established in the mind of consumers: a healthy gut positively influences both physical & mental health. The bakery products in Puratos' Happy Gut range all contain gut health promoting compounds, such as specific types of fibres, which can support consumers' gut health status.

GRAINS & SEEDS

We increase the quantity of grains & seeds in our products. Additionally, we promote the use of wholegrain versions to stimulate the consumption of bakery products containing high levels of grains, wholegrains and seeds. This helps consumers around the world to reach their recommended daily intake of fiber.

FRUITS

We increase, whenever possible, the fruit content in the fillings or the fruit filling content in the final application.

FAT REDUCED

We aim to remove or reduce fats, especially of low nutritional quality, or to replace them with fats of good nutritional quality. We also focus on removing trans fatty acids and replacing them with healthier fat sources.

SALT REDUCED

We offer solutions to reduce the quantity of salt in baked goods to help consumers abide to the 5g of salt/day as part of the World Health Organization recommendation.

In addition, Puratos' proprietary research program Taste Tomorrow enables us to have in-depth insights into global and local consumer behaviors, attitudes, and choices. With that in mind, we offer the right product range to cover consumer needs for transparency or plant-based alternatives.

CLEAN(ER) LABEL

More and more consumers want to reduce ingredients perceived as undesired such as additives, artificial colours and flavours. Puratos offers clean and cleaner label alternatives allowing for a shorter, clearer and cleaner ingredient list of the finished products.

ORGANIC

To answer the increasing demand for more natural products, Puratos provides, whenever possible, an organic alternative without compromising on taste, texture and overall functionality.

GLUTEN FREE

As an increasing number of people tend to avoid gluten in their diet, Puratos provides, whenever possible, nutritionally balanced gluten-free alternatives without compromising on taste and texture.

PLANT-BASED

Whenever requested, we contribute to a better planet by offering plant-based alternatives with taste, texture and functionality as close as possible to the traditional counterpart.

Food Innovation for Good

Bakery

Bread, as we know it today, has been shaped by over 250 generation of bakers. Every generation tried out new recipes, new ingredients and a string of baking techniques. All to bake even better breads. By getting the most from our heritage and respecting its three cornerstones - health, taste, texture - we intend to help bakers accomplish just that: better breads.

JOIN THE TRADITION, CREATE YOUR FUTURE

Traditions have been passed on, adapted, evolved and sometimes forgotten. Puratos believes that today's bakers deserve to stand on the shoulders of giants. That they should have access to the expertise of the 250 generations of bakers that came before us. That's why we research and preserve the heritage of bread in our Sourdough Library, re-introduce traditional ingredients like sourdoughs and ancient specialty grains and work on innovations inspired by nature. It's all about enabling you to join the tradition, and create your future with your very own, authentic signature breads. Rustic Style breads that go back to the roots of baking.

We help bakers be successful, by turning the heritage of bread from food cultures around the world into new opportunities. Over 250 generations of bakers have kneaded their hearts and their souls into bread. All to bake even better breads. By getting the most from breads heritage and respecting its three cornerstones – health, taste, texture – we move the heritage of bread forward, and help bakers be successful with their business.

Dough Conditioners

Dough conditioners provide peace of mind. They help you control all the uncertainties within the bread production process, such as variations in temperature, humidity, flour and labour. In this way, they enable you to ensure consistent premium results with every batch you bake.

DOUGH CONDITIONERS

TEXTURE & FRESHNESS

	Usage	Shelf Life	Packaging	Item #
Intens Extensibility CL An enzyme composition specifically designed to relax the dough. It allows for a better processing of the dough and is particularly recommended for automatic and industrial lines with short resting times.	0.2-0.5%	9 months	50 lb bag	4018644
Intens Fresh 2-30 / 2-40 A new generation of freshness enzymes formulated to improve shelf life and texture across large and small bread applications.	0.125-0.25%	9 months	50 lb bag	4018680 / 4017403
Intens Melting Used to enhance the melting properties of the crumb, making it easier to swallow (moist and short). Ideal for sweet baked items.	1-3%	9 months	50 lb bag	4018675
Intens Resilience 2.0 Intens Resilience 2.0 is desigend to enhance the resiliencey of buns and rolls, which helps to reduce wrinkling and flattening of breads.	2-5%	9 months	50 lb bag	4017357
Intens Short Module that provides a short bite and reduces the toughness/ chewiness of baked products. Particularly recommended in flat breads and in microwaved products.	2-3%	9 months	50 lb bag	4018668
Intens Sliceability A modular improver to use on top of any recipe to facilitate a better slicing on industrial lines.	0.5-1%	9 months	50 lb bag	4023960
Intens Microwave Bakery additive in powder form to improve the microwavability of yeast-raised baked goods like: buns, flatbreads, pizza crusts, etc.	3%	9 months	50 lb bag	4023936

COST REDUCTION

	Usage	Shelf Life	Packaging	Item #
Intens Puraslim A modular solution to reduce up to 50% of in-dough solid fat in sweet bread and pastry recipes.	1.5-3%	9 months	50 lb bag	4018212
Intens Tolerance To increase dough strength, dough tolerance, and volume. Particularly recommended to replace up to 4% vital wheat gluten.	0.25-1%	9 months	50 lb bag	4024056
Intens Soft & Fine An enzyme-based improver that gives greater initial softness, a finer & whiter crumb, and longer softness throughout shelf life when producing all different kinds of soft breads.	0.5-2%	9 months	50 lb bag	4020566
Intens Egg Replacement Modular ingredient in powder form to replace 1% of whole eggs in yeast-raised applicaitons. Intens egg Replacement can be added to any recipe, on top of existing bread improver.	0.2-0.8%	9 months	50 lb bag	4023863

FROZEN TECHNOLOGY

	Usage	Shelf Life	Packaging	Item #
Double Bake Improver An improver to provide superior quality in parbaked items.	1%	9 months	50 lb bag	4107564
Quick Step Crispy Clean Label A clean label dough conditioner for pre-fermented frozen dough; specially designed for crusty-style bread. Quick Step helps to keep the volume during freezing shelf life and prevents the freezer burn. It helps to develop the gluten network at low temperatures resulting in increased tolerance and reduces the impact of temperature fluctuations during storage.	2%	9 months	50 lb bag	4107399
Quick Step Croissant Clean Label A clean label dough conditioner for pre-fermented frozen dough; specially designed for crusty-style bread. Quick Step helps to keep the volume during freezing shelf life and prevents the freezer burn.	2%	9 months	50 lb bag	4107716
S-500 Frost 2% A high-quality multi-purpose improver that guarantees great volume, dough tolerance and freshness for products to be frozen up to 6 months, even under very challenging conditions. S-500 is highly versatile; you only need one improver for all types of yeast-raised baked goods applications.	2%	9 months	50 lb bag	4107256
S-500 Frost Green 2% A clean label all-purpose improver designed for frozen processing to provide dough tolerance and volume for all types of bread applications.	2%	9 months	50 lb bag	4107715

(ALL-PURPOSE) DOUGH CONDITIONERS

	Usage	Shelf Life	Packaging	Item #
S-500 Green A+ A clean label all-purpose improver; providing dough tolerance and volume for all types of bread applications. Not Kosher.	0%	9 months	50 lb bag	4107211
S-500 Green Non-GMO A clean label, Non-GMO all-purpose improver; providing dough tolerance and volume for all types of bread applications.	0.5-1%	9 months	20 kg bag	4006683
S-500 Green Organic An organic all-purpose improver specifically formulated to make organic breads and rolls. This solution is also Non-GMO.	1-2%	6 months	50 lb bag	4107866
S-500 Red An all-purpose improver formulated with the latest patent-pending enzyme technologies; providing outstanding dough tolerance, freshness, and volume. Highly versatile as it works for all types of bread applications and in all bakery conditions.	2%	9 months	50 lb bag	4107254
S-500 Red No ADA An all-purpose improver formulated with the latest patent-pending enzyme technologies; providing outstanding dough tolerance and volume.	2%	9 months	50 lb bag	4107215
S-500 Power (1%) Designed specifically for unfermented frozen dough to improve volume, crumb structure and freshness of the final baked product, while providing maximum tolerance.	1%	9 months	50 lb bag	4107623
S-500 Power Green (0.25%) A clean label all-purpose improver designed for industrial applications to provide dough tolerance and volume for all types of bread applications.	0.3%	9 months	50 lb bag	4007679
NP Improver A clean-label all-purpose improver for industrial bread applications.	1%	9 months	50 lb bag	4107328

Grains & Seeds

Softgrain represents a blend of tradition and innovation, harnessing the inherent benefits of grains and seeds while satisfying consumer preferences for flavorful, nutritious bread. Central to Softgrain's uniqueness is its proprietary process of cooking grains in sourdough. This innovative approach results in fresh breads that are rich in whole grains and seeds with a distinctive texture and flavor profile. With more bakers looking to include grains and seeds in their products, Softgrain overcomes common challenges by preserving freshness and enhancing visual appeal with vibrant whole grains throughout the entire bread.

Did you know?

Puratos has taken traditional German processes of precooking rye grains to the next level by cooking our grains in sourdough to create amazing flavor and texture.

SOFTGRAIN

		Usage	*Shelf Life*	*Packaging*	*Item #*
Softgrain Amber Grain CL A rich blend of whole oat groats, brown flax seeds, sunflower seeds, millet seeds, and cracked wheat cooked in rye sourdough with a touch of molasses and brown sugar for added sweetness.		10-50%	9 months	38 lb bag-in-box	4014438
Softgrain Amber Grain Organic Organic blend of whole oat groats, brown flax seeds, sunflower seeds, millet seeds, and cracked wheat cooked in rye sourdough with a touch of molasses and brown sugar for added sweetness.		10-50%	9 months	38 lb bag-in-box	4014450

Chocolate

Great Taste **Doing Good**

Cacao-Trace: a game-changing approach to sustainable sourcing

We create value through our fermentation mastery that results in superior tasting chocolate. Then, **we share the value** created among the entire cocoa chain, especially with cocoa farmers. Cacao-Trace is the only sustainable cocoa sourcing program that is redefining the standard for chocolate.

At Puratos, we are building a better future for cocoa **with a game-changing strategy**. The traditional business model in the cocoa industry does not provide a sustainable future, driven by a commodity mindset which looks at quantity over quality. There is an imbalance in profit share, poor working conditions, deforestation, child labor and women inequality.

Cacao-Trace differentiates itself by **focusing on taste improvement.** Our exceptional fermentation expertise, with an unparalleled international network of postharvest centers, is the key to creating superior tasting chocolate and a higher value product.

Better lives: Our quality premium and chocolate bonus, in which we give 5 cents for every pound of chocolate sold back to the farmer, results in 2 to 5 months additional revenue. We also improve health and education by building schools, maternity hospitals, and clean water stations.

Better planet: We are on track to plant 3.4M trees by 2030 as well as training cocoa farmers to grow more sustainably.

Better business: Taste Tomorrow survey shows 60% of customers look for products that are produced sustainably in their food purchase and 60 % of customers look for food for which they know farmers receive a fair price. Cacao-Trace creates a direct link between farmers and customers.

Better consumers mindset: Cacao-Trace chocolate results in peace of mind for consumers.

Join our exceptional world of premium chocolate!

Discover our premium chocolate collection, featuring Belgian and domestic chocolates under our Belcolade and Chocolanté brands. We also offer a variety of high-quality hard and soft compounds from our Carat brand, as well as nut pastes and fillings under Carat and PatisFrance.

Our collection includes a full range of colors and shapes – drops, blocks, chunks, and chips in various sizes – to meet every culinary need. Experience the finest quality chocolate designed for every imaginable application.

Real Chocolate

Chocolate is the number one flavor used in sweet goods and of course is the bread and butter of chocolatiers. Puratos prides itself on using only the highest quality ingredients in all of its products by carefully selecting the finest cocoa beans. This results in chocolates that are distinguished by their consistency and great taste, ranging from classic Belgian chocolates to locally produced chocolate.

Compounds

Compound chocolate is made of cocoa powder and vegetable fats such as palm oil and palm kernel oil. It looks like chocolate, tastes like chocolate, but it is much easier to use. Simply melt it and apply for any type of application. Puratos offers a high-quality selection of compound coatings and inclusions for a wide variety of applications. By selecting only the finest cocoa beans and freshest ingredients, the Carat range stands out for its superior quality, excellent taste experience and the right texture and viscosity.

Did you know?

Our compound chocolate is made like real chocolate, using 5-roller refining and high-quality, non-hydrogenated palm oils.

puratos Food Innovation for Good

Nut-Based Fillings

Puratos offers a range of nut-based fillings for your sweet goods and confectionary applications. With an intense and creamy taste, plus their low water activity, these fillings are ideal to fill long shelf-life, dry sweet goods. They are also delicious in fresh and frozen applications. Better yet, they are super easy to use – just stir and apply, before or after baking.

Did you know?

Nuts are one of the most preferred tastes in sweet goods – their rich and distinctive flavor makes them a favorite ingredient in baking, confectionery, and desserts.

Sweet Goods

More than ever, consumers crave authentic, delicious creations with exciting flavors and textures.

Never have they been more conscious about the stories behind their foods and the impact it has on their health and the planet.

This is why we are reinventing "classic" desserts with unexpected texture combinations, better-for-you, and more sustainable ingredients.

Because no matter if it's a brownie, muffin or apple pie, we believe that Every Creation Has a Story to Tell.

Enzyme-Based Cake Improvers

Did you know?

The enzymes used in all our improvers are derived from nature, clean-label, and seamlessly integrate into your formulations without requiring changes to your ingredient decks.

Enzymes are present in nature like plants & living organisms. They are reproduced at Puratos to improve the quality of your cakes without impacting your ingredient label. At Puratos, we have created a wide range of enzyme-based cake improvers to help you improve your cake's freshness, texture and cost.

EGG REPLACEMENT

		Usage	*Shelf Life*	*Packaging*	*Item #*
