

Sunset Glaze

A plant-based egg wash substitute that adds an irresistible golden shine to your creations.

Discover [Sunset Glaze](#), a plant-based egg wash alternative that can be stored at ambient temperature thanks to our Ultra-High Temperature (UHT) production process. Simplify your baking operations with our allergen-free formulas, while elevating the look of your baked goods. Use straight from the box or dilute with up to 30% water.

100%
plant-based

Reduced food
safety risk
(vs eggs)

Compatible
with all types of
glazing
equipment

Apply before
baking. Use
before or after
freezing.

9 months
ambient
storage

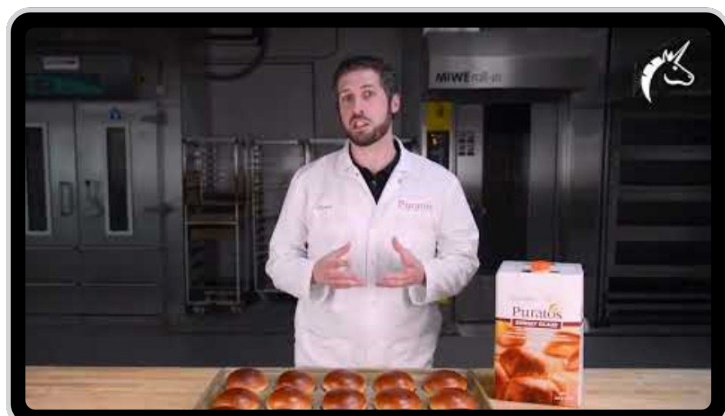

Made with 100% Plant-Based ingredients

Did you know you can reduce your carbon footprint by 59% when using Sunset Glaze instead of pasteurized eggs?

Based on general assumptions and may vary. Actual emissions can differ due to changes, such as sourcing, manufacturing process, or transportation methods. Verified by GF-impact, using the Product Environmental Footprint Methodology ([study](#) conducted in 2022)

No eggs? No problem!

- Say goodbye to **volatile egg prices**
- Extend the life of your **baking pans**
- Use your existing glazing **equipment**
- **Glaze 30% more** than with eggs
- **Free up your freezer/cooler** space
- Cut your **carbon footprint** in half
